Testing at Anse Chastanet, Saint Lucia

We are able to facilitate PCR testing or rapid antigen testing at the resort.

We offer the rapid antigen test free of charge to any existing or new booking of 3 nights and more for travel Jan 15 - September 30, 2021.

Charges for rapid antigen tests (when not provided free of charge)

- Charges for 1 person: US\$50.00;
- Charges for 2 people: US\$100.00;
- Charges per additional person (after 2 people): US\$50

Results- Antigen Testing

The results are received the same day, within a few hours after being tested. . We coordinate the exact time of the nurse's visit to the guest room/sanctuary during guest stay with us. The test is a Panbio Abbott test which is approved by the WHO.

Booking Process for the PCR Testing

A COVID-19 PCR Test is booked upon guest request, preferably prior to arrival. A 24-hour notice is required for all bookings to ensure doctor's availability. The test date is scheduled for 72 hours prior to the guest's departure date.

Process at the resort

A certified doctor comes on property to facilitate a COVID-19 PCR test, via nasal swab. The doctor would meet the guests in their room with the appropriate PPE and test equipment.

Charges

The below charges include doctor's fee, COVID-19 PCR Test and transportation fee, payable to the doctor in cash directly by the guests. If they wish to add the charge to their room account, a 10% service charge would apply.

- Charges for 1 person: US\$250.00;
- Charges for 2 people: US\$450.00;
- Charges per additional person (after 2 people): US\$200.00.

Results

The results take approximately 48 to 72 hours to be received. Results are e-mailed to the guests directly by the Laboratory.

This information is based on currently available information and costs of tests.
