

Update on free Medical Assistance coverage at Blue Diamond Resorts properties

March 26, 2021

Keeping our promise to provide Safety-Assured Vacations to our valued guests and to ensure they feel safe and confident when traveling again to our destinations, we would like to inform you about some updates regarding **free Medical Assistance coverage** for US guests.

We are happy to inform that, in addition to the extension of our free on-site COVID-19 viral tests program, we have decided to extend our current Medical Assistance coverage program for free until **June 30, 2021**, for guests traveling to any of our destinations from the United States.

All-In Medical Assistance

Thanks to our partnership with MAS Servicios, all guests arriving from the US can benefit from an extended medical assistance coverage to cover the cost of any accidents or illness, including COVID-19 related medical needs while on vacation. Coverage can be shared by up to four travelers and includes, but is not limited to, medical assistance for accidents, outpatient medication, emergency medical transportation, assistance with locating lost or stolen luggage, 24-hour legal assistance, travel disruption and more. Viral Antigen Testing

We would also like to remind you that our current coverage program for free on-site COVID-19 viral tests remains until December 31, 2021, for guests traveling by air from the United States to Cancun, Punta Cana, Costa Rica and Jamaica. Besides, we have also extended this benefit to guests traveling to Antigua until April 30, 2021. Note that reservations should have a 3-night minimum length of stay to receive this service free of charge in Antigua, Jamaica, Costa Rica and Cancun. Punta Cana currently does not require a minimum length of stay.

This procedure will be carried out by a medical professional in a designated area of the resort and we strongly encourage guests to schedule their appointment upon arrival to the property through our Guest Services team since there are currently many requests for this procedure. Test results will be available the same day and will be delivered to the guest's room or available at the Front Desk.

For those guests arriving to Saint Lucia, the viral antigen testing is available on property at an extra cost.

Disclaimer: COVID-19 viral testing is a third-party service provided by a certified local lab in alliance with our in-house doctors. Blue Diamond Resorts will not accept responsibility for any disputes related to the use of this service. The use of this service is at the complete discretion of the guest and guests will always have the option to visit any local clinic to take the test on their own.

The safety of our guests and employees are our priority and it is our promise that we will continue to share up to date information as it becomes available. To learn more about our Safety-Assured Vacations protocols and download the complete guide, please [click here](#).
