

Official Statement

For BlueBay Resorts, the safety, tranquility and well-being of our guests are our top priority. That is why, in view of the new measures required by the Centers for Disease Control and Prevention (CDC), we are proud to announce that the corresponding tests will be provided in the comfort of our facilities to all our guests from USA in order to have a healthy return to their homes.

Under the new requirements of the CDC, beginning January 22nd, 2021 BlueBay Grand Esmeralda & Blue Diamond Luxury Boutique Hotel will have the Antigen tests available free of charge to guests with a return flight to home starting on January 26th*. In case that a guest would like to take the PCR test as an additional option or instead of the Antigen test, it will have an extra charge and this will be performed off-site.

We remind you that these services will be provided by Hospiten, so BlueBay Hotels is released from any responsibility related to the performance of the above mentioned tests. The use of this service is at the discretion of the guest, always having the last word, being able to carry out the test in another laboratory (at their own expense) if they wish.

We appreciate your preference. For more information, please contact our Concierge Department at:

Stay Safe,

BLUEBAY HOTELS

**Terms & conditions apply*

BlueBay Grand Esmeralda free tests are applicable for all bookings with 4 nights minimum stay. Blue Diamond Luxury Boutique Hotel does not require minimum stay.

Guests need to make reservations for their tests. The Hotel Concierge Team will coordinate with guests to accommodate the appointments and confirm them the time. Guests must take into consideration that CDC requires the test to be taken no more than 72 hours prior to your scheduled departure.
