COVID 19 TESTING

Our teams continue to closely monitor the latest developments surrounding COVID-19.

As we are aware that several countries are requiring a negative COVID-19 test result in order to board planes for international flights, our staff are available for 24-hour assistance.

In an effort to provide a safe travel experience for all, we would like to share the below information.

The hotel concierge and reception teams will assist guests onsite with scheduling their tests.

We encourage each client to verify the CDC website for the requirements for entry in to their arrival country. Antigen testing in some cases meets these CDC requirements, while other countries require PCR testing and must be taken within 3 calendar days before your departing International flight.

FREQUENTLY ASKED QUESTIONS

Do I need to make an appointment for the test or will walk-ins be accepted?

Guests are required to make an appointment and walk-ins will not be accepted. Our team will assist guests onsite with scheduling their test after they have checked-in.

Cost of tests?

Antigen test cost is approximately \$20 USD per test and the results delivered within 20 minutes. The PCR test is approximately \$100 USD per test and results are delivered within three days.

Where are tests performed?

In an effort to continue providing you with a safe experience, antigen tests are performed at the hotel in a dedicated area. Guests who require PCR tests can either go to the external lab or ask for service at the hotel for a small additional cost.

How will results be delivered?

Guests will receive a print or digital copy
