Should A Guest Test Positive

The lab/hospital that took your test will send the official report to the Ministry of Health of Costa Rica and you will be issued a mandatory health order where you cannot leave the country for minimum 10 days. You will have to quarantine, and you cannot leave your room until the end of quarantine period.

Should a Guest test positive they will immediately be required to quarantine in their room at the resort. The property team will provide daily check's with quarantined guests and the resort will deliver room Service meals to the room if under quarantine. Quarantined guests will be responsible for all room and incidental charges.
