Marigot Bay Resort and Marina Offers Free COVID-19 Antigen Testing

Several Governments have announced that all returning international travelers are required to present a negative COVID-19 test upon returning home, and Marigot Bay Resort and Marina has introduced procedures to accommodate the new requirements.

The resort is now offering antigen testing directly to our guests. The 'Marigot Moment Maestros' team will arrange easy and convenient on-site testing and the rapid test will be administered by our professional health personnel at no-cost. PCR tests are also available to resort guests at an additional cost.
